About SCIA:

Founded in 1974, SCIA has become one of the world's leading developers of structural design and analysis software that supports the Open BIM process. SCIA is a wholly owned subsidiary of the globally operating **Nemetschek Group**, a leading global software provider for the Architecture, Engineering and Construction market (AEC). SCIA's core purpose is to help users to create their best structural designs. To do so, the company provides powerful, cutting-edge software through a continual process of improvement, innovation and customer input.

SCIA Engineer is an integrated, multi-material structural analysis and design software for all kinds of structures. Its wide range of functionality makes it the ideal partner for the design of office buildings, industrial plants, bridges or any other project, all within the same easy-to-use environment. The software is powered by SCIA's dedicated and passionate team of structural engineering devotees. SCIA Engineer supports Open BIM and is IFC certified for import and export.
